Katamino Family

Two-player cards

How to play

1. Lay the card between you. Each player takes the pieces from their half.
2. Each player fills the board from their own end. Put a separator just after your rectangle.
3. Rectangle full? Take any pentomino from the middle of the card, move your separator one row further and fill again.
4. Stop at 6 rows. At 6 + 6 you meet in the middle: one separator is enough.
5. First to finish wins. Every pentomino in the middle works: no dead ends.

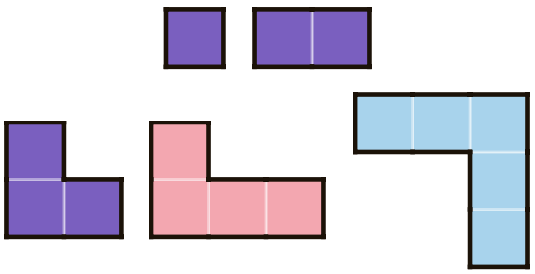

Difficulty

●○○○○	**Very easy**	3×5: 60–100 %	4×5: 19–100 %
●●○○○	**Easy**	3×5: 42–59 %	4×5: 10–19 %
●●●○○	**Medium**	3×5: 35–40 %	4×5: 4.7–10 %
●●●●○	**Hard**	3×5: 25–35 %	4×5: 1.6–4.7 %
●●●●●	**Expert**	3×5: 5.3–24 %	4×5: 0–1.6 %

The percentage is the chance that putting the big pieces down at random still leaves gaps the small ones can fill. Fewer small pieces means harder. Two players of different ages: use the cards with two different colours.
